

TCx™ Simplify

Point of Sale as a Service

A new way to pay

Toshiba's TCx Simplify is an innovative program that allows retailers to acquire hardware, software and services on a flexible, pay-as-you-go basis. By making monthly payments rather than a large, upfront expenditure, you conserve capital and protect against obsolescence. The program is highly flexible, allowing you to add, change or delete services as your needs change. TCx Simplify also helps you focus on areas that drive differentiation and bottom-line benefits without the high costs of ownership. All from Toshiba, the world's largest provider of POS technology.

Flexible options with a single monthly payment include:

- > Hardware
- > Software
- > Installation
- > Maintenance
- > Support

Once you decide what you want, you can free up time and capital to spend on other immediate business needs. A Toshiba consultant will be happy to help you determine which option is best for you.
