7701-N94 - Toshiba CHEC BOSS Version 7 Release 1

LICENSE INFORMATION

The Programs listed below are licensed under the following terms and conditions in addition to those of the International Program License Agreement Z126-6006-00.

Program Name: Toshiba CHEC Back Office Application Version 7 Release 1
Number: 7701-N94

Supporting Programs

The Program is licensed as a multi-product package and includes the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under this Agreement and within the limits of the Proofs of Entitlement for the Program (unless broader rights are provided elsewhere in this License Information document). The phrase "to support Licensee's use" would include only those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. Licensee is not authorized to transfer or remarket the Supporting Programs separate from the Principal Program. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to the party from whom Licensee acquired the Program. If Licensee downloaded the Supporting Programs, Licensee should contact the party from whom Licensee acquired the Program. If Licensee wishes to license the Supporting Programs for any use beyond the limits set forth above, please contact a Toshiba Sales Representative or the party from whom Licensee acquired the Program to obtain the appropriate license.

The following are Supporting Programs licensed with the Program:

IBM DB2 Enterprise Server Edition 9.7 for Windows
Toshiba Remote Management Agent Version 3 Release 2
IBM WebSphere Application Server Version 8.5.5

Limited Use Program

This Program is supplied only for use with Named Program(s) identified below or their successors. Licensee is prohibited from using this Program in connection with any other software.

Named Program(s):
IBM Websphere Application Server (WAS) V8.5.5
IBM DB2 Enterprise Server Edition for Windows Version 9.7

Limited Use Program

This Program is supplied only for use with named hardware or hardware configuration(s) identified below or upgrades to them. Licensee is prohibited from using this Program in connection with any other hardware.

Named hardware or hardware configuration(s):
Toshiba Self Checkout System (machine type 4845)
Toshiba Self Checkout System 6 (machine type 4888)
Toshiba Self Checkout System 7 (machine type 6800)

Benchmarking

Licensee may disclose the results of any benchmark test of the Program or its subcomponents to any third party provided that Licensee (A) publicly discloses the complete methodology used in the benchmark test (for example, hardware and software setup, installation procedure and configuration files), (B) performs Licensee's benchmark testing running the Program in its Specified Operating Environment using the latest applicable updates, patches and fixes available for the Program from Toshiba or third parties that provide Toshiba products ("Third Parties"), and (C) follows any and all performance tuning and "best practices"
guidance available in the Program's documentation and on Toshiba s support web sites for the Program. If Licensee publishes the results of any benchmark tests for the Program, then notwithstanding anything to the contrary in any agreement between Licensee and Toshiba or Third Parties, Toshiba and Third Parties will have the right to publish the results of benchmark tests with respect to Licensee's products provided Toshiba or Third Parties complies with the requirements of (A), (B) and (C) above in its testing of Licensee's products.

Notwithstanding the foregoing, under no circumstances may Licensee publish the results of benchmark tests run on Oracle Outside In Technology without prior written permission.

The above benchmarking terms apply to the following Programs or subcomponents:
The Websphere Application Server component of the Program.

Install

Install is a unit of measure by which the Program can be licensed. An Install is an installed copy of the Program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each Install of the Program.

Server

Server is a unit of measure by which the Program can be licensed. A server is a physical computer that is comprised of processing units, memory, and input/output capabilities and that executes requested procedures, commands, or applications for one or more users or client devices. Where racks, blade enclosures, or other similar equipment is being employed, each separable physical device (for example, a blade or a rack-mounted device) that has the required components is considered itself a separate server. Licensee

must obtain Server entitlements for each server made available to the Program, regardless of the number of processor cores and/or partitions in the server or the number of copies of the Program on the server.

Program-unique Terms

IBM DB2 Enterprise Server Edition 9.7 for Windows

The following applies to use of the IBM DB2 edition(s) specified in the Supporting Programs section of this License Information:
- Use Limitations: Use by Principal Program

"Use by Principal Program" means that the Supporting Program is provided exclusively for use by the Principal Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration
