Terms for Separately Licensed Code

LICENSE INFORMATION

The Program listed below is licensed under the following terms and conditions, in addition to those of the Toshiba International Program License Agreement ("IPLA").

Program Name: Toshiba TCxGravity Version 1 Release 1

Program Number: 5639-P01

Supporting Programs

The Program identified above is licensed as a multi-product package and includes the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Program pursuant to this License Information document, the IPLA and within the limits of the Proofs of Entitlement for the Program (unless broader rights are provided elsewhere in this License Information document). The phrase "to support Licensee's use" would include only those uses that are necessary or otherwise directly related to a licensed use of the Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. Licensee is not authorized to transfer or remarket the Supporting Programs separate from the Program. A Supporting Program may be accompanied by different license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of a conflict, the terms in this License Information document govern and supersede the Supporting Program's terms. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to the party from whom Licensee acquired the Program. If Licensee downloaded the Supporting Programs, Licensee should contact the party from whom Licensee acquired the Program. If Licensee wishes to license the Supporting Programs for any use beyond the limits set forth above, please contact a Toshiba Sales Representative or the party from whom Licensee acquired the Program in order to obtain the appropriate license.

The following are the Supporting Programs licensed with the Program:

- IBM WebSphere Application Server V7.0
- IBM WebSphere Application Server Express V7.0
- IBM DB2 Workgroup Server Edition V9.7
- IBM Sterling Order Management Edition for Toshiba TCxGravity V9.2.1
- IBM Cognos Business Intelligence Server V10.1.1 including
- IBM Cognos Report Studio Professional
- IBM Cognos Query Studio
- IBM Cognos Framework Manager
- IBM Installation Manager and Packaging Utility for the Rational Software Development Platform V1.5

Unique Terms for Certain Supporting Programs

IBM Sterling Order Management Edition for Toshiba TCxGravity V9.2.1

Licensees using Toshiba TCxGravity Point of Sale (POS) are permitted to use the advanced deployment model of IBM Sterling Order Management solely with their Point of Sale (POS) only deployment. The advanced deployment model includes the use of database sharing functionality to spread data across multiple database instances in order to provide enhanced scalability of the database tier.

IBM DB2 Express Edition 9.7 for Windows

The following applies to use of the IBM DB2 edition(s) specified in the Supporting Programs section of this License Information:

- Use Limitations: Use by Principal Program

"Use by Principal Program" means that the Supporting Program is provided exclusively for use by the Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration

IBM Websphere Application Server

Use of IBM WebSphere Application V7.0 is subject to the following

- Use Limitations: No Metric

"No Metric" means this Supporting Program may be installed on as many machines and used by as many persons as is reasonably necessary within the use limitations that apply to this Supporting Program.

Other Toshiba Application Server Solutions

Licensee is only authorized to use the WebSphere Application Server with a WebSphere Application Server Network Deployment configuration when using the Job Manager component of the "Network Deployment" configuration in which case Licensee can have admin agents running on the Program managed by a Network Deployment Job Manager. Licensee is not authorized to manage the WebSphere Application Server with a WebSphere Application Server Network Deployment configuration for any other purpose.

Restricted Use Components

Licensee is authorized to configure a WebServer Plugin to multiple application servers for the purpose of simple load balancing and failover.

Separately Licensed Code

Each of the components listed below are licensed to Licensee by a third party as part of the Program and considered "separately Licensed Code", which means that use of these components by Licensee is subject to the terms of the applicable third party license agreements set forth in the non-Toshiba License text files that accompany the Program. Notwithstanding any of the terms in this License Information document, the IPLA or any other agreement Licensee may have with Toshiba, the terms of such third party license agreements govern Licensee's use of all Separately Licensed Code unless otherwise noted below. The provisions of this paragraph do not apply to the extent they are held to be invalid or unenforceable under the law that governs this license.

Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed code and related licenses will be listed in another non-Toshiba License text file that accompanies the Program update or fix.

Licensee acknowledges that Licensee has read and agrees to the third party license agreements contained in the non-Toshiba License text files. If Licensee does not agree to the terms of these third party agreements, Licensee may not use the Program or the Separately Licensed Code.

The following are the components of Separately Licensed Code in the current program:

- Active MQ 5.7.0
- camel 2.8.4
- commons-beanutils 1.8.0
- Commons-Codec 1.2
- commons-collections 3.2.1
- Commons-HttpClient 3.1
- commons-io 2.0.1
- commons-lang 2.5
- commons-logging 1.1.1
- commons-management 1.0
- Commons-Net 2.2
- Ezmorph 1.0.6
- Geronimo 1.0.1
- Jasypt 1.8
- Jetty 7.5.1
- jms 1.1
- JSON-lib 2.3
- kahadb 5.6-20120101.153212-2
- log4j 1.2.16
- OpenAjax 2.0.7
- org.osgi.core 4.1.0
- spring framework 3.0.7
- velocity 1.7

Dojo 1.8.1
dgrid
slf4j 1.5.6
slf4j-log4j12 - 1.5.6
aopalliance 1.0
xmlpull 1.1.3.1
ecj 3.5.1
jsp-2.1-glassfish
XPP3 1.1.4c
xstream 1.4.2
jdom 1.0

For Programs acquired under the International Program License Agreement ("IPLA") or International Program License Agreement for Non Warranted Program ("ILAN") and where Licensee is the original licensee of the Program, if Licensee does not agree with the third party license agreements, Licensee may return the Program in accordance with the terms of and within the specified time frames stated in, the "Money-back Guarantee" section of the IPLA or ILAN Toshiba Agreement.

Toshiba may provide limited support for some Separately Licensed Code. If such support is available, the details and any additional terms related to such support will be set forth in the License Information document.

Notwithstanding any of the terms in the third party license agreements, this Licensee Information document or any other agreement Licensee may have with Toshiba, Licensee's use of the Separately Licensed Code is subject at all times to the following:

- (a) Toshiba provides this Separately Licensed Code to Licensee on an "AS-IS BASIS" WITHOUT WARRANTIES OF ANY KIND;
- (b) TOSHIBA DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE SEPARATELY LICENSED CODE;
- (c) Toshiba is not liable to Licensee, and will not defend, indemnify, or hold Licensee harmless for any claims arising from or related to the Separately Licensed Code; and
- (d) Toshiba is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits, with respect to the Separately Licensed Code.

Notwithstanding these exclusions, in Germany and Austria, Toshiba's warranty and liability for the Separately Licensed Code is governed only by the respective terms applicable for Germany and Austria in Toshiba license agreements.

Client Device

The TCxGravity POS Application must be ordered by Licensee on a per "Client Device" basis. A Client Device is a single user computing device or special purpose sensor or telemetry device that requests the execution of or receives for execution a set of commands, procedures, or applications from or provides data to another computer system that is typically referred to as a server or is otherwise managed by the server. Multiple Client Devices may share access to a common server. A Client Device may have some processing capability or be programmable to allow a user to do work. Examples include, but are not limited to actuators, appliances, automated teller machines, automatic meter readers, cash registers, disk drives, desktop computers, kiosks, notebook computers, personal digital assistant, point-of-sale terminals, sensors, smart meters, tape drives, and technical workstations. Licensee must obtain entitlements for every Client Device which runs, provides data to, uses services provided by, or otherwise accesses the Program and for every other computer or server on which the Program is installed.

Install

The TCxGravity In-Store Offline Server must be ordered by Licensee based on the number of "Installs". A single install is an installed copy of the Program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each Install of the Program.

Trademarks

Toshiba and the Toshiba logo are trademarks or registered trademarks of Toshiba Corporation in the United States, other countries, or both.

TCxGravity and TCxWave are trademarks of Toshiba Global Commerce Solutions in the United States, other countries, or both.

IBM, WebSphere, Express, DB2 and Cognos are registered trademarks of IBM Corporation in the United States, other countries, or both.

Windows and Microsoft are trademarks of Microsoft Corporation in the United States, other countries, or both.

Other company, product, and service names may be trademarks or service marks of others.
